

Piktogrammer: *Fag*

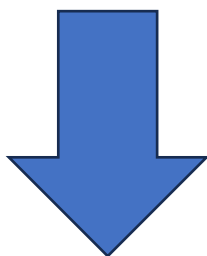

Med disse piktogrammer kan du nemt lave dagens skema på tavlen og skabe et godt overblik for dine elever.

Tallene og pilene kan bruges ved siden af fagene. Flyt pilen i løbet af dagen så den peger på den lektion, I er i gang med.

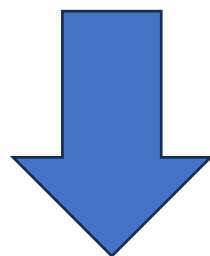

Skiltene med dato, elevtal, dagsorden osv. kan bruges til at inddele din tavle i zoner, alt efter hvad du ønsker at have fokus på.
